Tare Weight Certification System

Weighing System to suit Empty Vehicle Weights up to 400 Tonnes

↓ EVW =
↑ TARGET PAYLOAD

- ◆ Portable / Relocatable
- ◆ 12VDC Operation
- ◆ Better than 1% Accuracy
- ◆ Quick, Safe & Accurate means of determining Target Payload
- ◆ Connects Wirelessly to Palm Computer/Laptop
- ◆ Safe Overload Factor
- ◆ Waterproof Control Electronics

The Transcale Tare Weight Certification System is comprised of four individual load platforms that can be integrated with standard lifting / blocking stands in the workshop. All associated control electronics are supplied in a waterproof Pelican carry case.

The system can provide an accurate EVW verification for trucks and platforms from 50 tonnes to 400 tonnes, depending on the capacity of the workshop stands or lifting blocks. A Tare Weight Certificate can be provided if required.
